Instructions Transfer/Transient/Former Students

- **Submit either a paper or an electronic application (www.applytexas.org), NOT BOTH. We encourage you to apply online.**
- **A “transient” student is one who enrolls temporarily for a single course or one term only.**
- **Majors and codes are available on the Internet at www.applytexas.org and in the *Code Book*, available at www.collegeforalltexas.com, in the admission office of public universities and colleges, and in high school counseling offices.**

Check Fall, Spring, Summer I, or Summer II, and enter the year you plan to begin attending. “Mini or short semester” may not apply to all universities.

Check if you are applying as a transfer student, transient student, or former (re-entry) student. Enter the appropriate information for each category. Check all that apply.

* This question is optional, but including the information may assist your admittance. You are strongly encouraged to complete this question.

Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Essays

Most universities in Texas do not require essays as part of the admission process. Check the list on pages ii through iv or the web site at www.applytexas.org. Be sure to include your name and Social Security number on each of your essay pages and enclose your essays with your application. If you apply electronically, also include on your essays the web identification number you are given.

Application Fee

Application fees are listed on pages ii through iv. Include the student’s name and Social Security number on your check or money order. Some universities also accept credit cards. Procedure for Applying to More Than One College or University

The ApplyTexas Application was created to help make applying to a Texas institution of higher education easier. You are strongly encouraged to apply online at www.applytexas.org.

The following procedure is recommended for students who wish to apply to more than one college or university and who complete a paper application:

1. Each institution has its own unique admission instructions and required credentials. Before mailing your application, refer to the web site or contact the admissions office of each college or university to which you apply for additional institutional information.
2. Complete Parts I and II of the ApplyTexas Application. Leave item #17 blank as you are completing the application.
3. Photocopy the original completed application and make one copy for each college or university to which you are applying. Keep the original application for your files in the event you wish to apply to other institutions at a later time.
4. On each copy of the application, complete item #17 by entering the name of the college or university to which you are applying and your first and second choice of major. Follow the instructions for completing the ApplyTexas Application to ensure proper listing of major(s).
5. Submit one completed application to each college or university to which you are applying, including Part II, essays and application fee if these items are required by the institution. Not all institutions require applicants to send in the same parts of the common application. See the general application information section on pages ii through iv of this booklet to determine what items are required by the institutions to which you apply.

Essays

Institutions do not require all of the essays. See “General Application Information” on pages ii through iv to determine if you are required to write an essay or essays as part of your application for admission. Unless otherwise specified, your essay(s) should be typed and be no longer than one page (8 1/2” x 11”). Put your name and Social Security number* (see note below) at the top of each page.

Topic A. Statement of Purpose: The statement of purpose will provide an opportunity to explain any extenuating circumstances that you feel could add value to your application. You may also want to explain unique aspects of your academic background or valued experiences you may have had that relate to your academic discipline. The statement of purpose is not meant to be a listing of accomplishments in high school or a record of your participation in school-related activities. Rather, this is your opportunity to address the admission committee directly and to let us know more about you as an individual, in a manner that your transcripts and the other application information cannot convey.

Topic B. If you are applying as a former student and were suspended for academic reasons, describe briefly any actions you have taken to improve your academic abilities and describe why you should be readmitted. **If you are applying as a nondegree-seeking or postbaccalaureate applicant,** briefly describe the goals you wish to accomplish if admitted, including the courses you would like to enroll in.

Topic C. There may be personal information that you want considered as part of your admissions application. Write an essay describing that information. You might include exceptional hardships, challenges, or opportunities that have shaped or impacted your abilities or academic credentials, personal responsibilities, exceptional achievements or talents, educational goals, or ways in which you might contribute to an institution committed to creating a diverse learning environment.

* (Although entering your Social Security number is optional, providing it will ensure your documents are matched and processed promptly.)

Essays, continued

Topic D.

The essay in this section is specific to certain college majors and is not required by all colleges/universities that accept the ApplyTexas Application. Please see the “General Application Information” in the front of this booklet. If you are not applying for a major in Architecture, Art, Art History, Design, Studio Art, Visual Art Studies/Art Education, you are not required to write this essay.

Personal interaction with objects, images and spaces can be so powerful as to change the way one thinks about particular issues or topics. For your intended area of study (architecture, art history, design, studio art, visual art studies/art education), describe an experience where instruction in that area or your personal interaction with an object, image or space effected type of change in your thinking. What did you do to act upon your new thinking and what have you done to prepare yourself for further study in this area?

Topic E.

Choose an issue of importance to you – the issue could be personal, school related, local, political, or international in scope – and write an essay in which you explain the significance of that issue to yourself, your family, your community, or your generation.
