THE PURPOSE OF THE UTPB ACADEMY

The UTPB Academy offers academically able high school students the opportunity to take courses during their junior and senior years for dual credit. The student is afforded an introduction to the university environment with the rigor and quality of instruction and curriculum normally found in a university setting.

Students will find that these credits will prepare them well for introduction into their college careers that will likely result in a smoother transition to a university environment. Credits from UTPB are readily accepted by four year colleges, universities and by military academies.

FOR MORE INFORMATION!

UTPB will offer scholarships to high achieving students who qualify for admission to the UTPB academy. The normal tuition and fees for a three hour course at UTPB is approximately \$560, which is quite affordable when compared to other universities. However, the cost may be prohibitive to some high school students for whom financial aid is not available. For this reason the UTPB academy will allow qualified students enrolling in three (3) hours of credit to take courses for \$160 per class. Students must maintain a 2.75 grade point average to continue receiving the academy scholarship each semester.

THE UTPB ACADEMY SCHOLARSHIP

BOOKS FOR THE UTPB ACADEMY SCHOLARSHIP

Books will be provided for the UTPB Academy at a discounted rate. Students will pay approximately 1/3 the normal price for books and will return them at the end of each semester. The books will be reused for other high school students. UTPB will purchase the books for dual credit courses and will keep them in a centrally located book bank. Students will be able to pay a reduced fee to use the books for the semester during which they need them.
